
We are expanding the educational space. Classes on the basis of V. Sukhomlynskyi State Scientific and Pedagogical Library of Ukraine

On October 30, 2019, a laboratory class on the "Pedagogy with the Basics of Inclusive Education: General Pedagogy" was held in V. Sukhomlynskyi State Scientific and Pedagogical Library of Ukraine. The topic "Literature Sources in Pedagogical Research" was delivered to the first-year students of the specialty "Primary Education" by Venhlovska O. A., associate professor of the Department of Pedagogy and Psychology.

During the class, students got acquainted with the literature sources in pedagogical research, in particular with the expositions "Collection of rare and valuable publications (second half of XVIII-early XX centuries)", "V. Sukhomlynskyi SNPL of Ukraine as an object of national and cultural heritage of Ukraine", and works of V. Sukhomlynskyi and documentary sources about the life and work of the teacher. The proposed publications on pedagogy and psychology have scientific, historical and cultural value and are a solid literature sources for scientific and pedagogical research.

In the course of the work future teachers worked with the electronic catalogue of the library, and integrated branch library and information resources. Students' immersion into the pedagogical source studies contributed to the formation of their research skills.
