

## Webinar-workshop "Learning by Playing: Mathematics in the Palms of your Hands, Sensory Skills, Logic, Speech, and Movement"

---

On **March 27, 2021** a webinar-workshop "Teaching by Playing: Mathematics in the Palms of your Hands, Sensory Skills, Logic, Speech, Movement" was held for teachers of preschool education institutions in Kyiv and other cities.

This interactive event was a part of a series of webinar-workshops held by the Department of Preschool Education of Borys Grinchenko Kyiv University to discuss conceptually significant issues of the Basic component of preschool education (2021) and the main guidelines of the Educational program for children from two to seven years old "The Child".

Participants of the webinar studied the issues of sensory-cognitive, logical-mathematical, and physical development of preschool children, usage of psychological games in the educational process; got acquainted with the history of psychotechnical exercises; played distance and psychological games; performed kinological exercises.

*Moderators of the event: Maryna Mashovets, Candidate of Pedagogical Sciences, associate professor, Kateryna Volynets, Candidate of Pedagogical Sciences, associate professor; Olena Kovalenko, Candidate of Pedagogical Sciences, associate professor; Larysa Harashchenko, Candidate of Pedagogical Sciences; Svitlana Kondratyuk, Candidate of Pedagogical Sciences; Maryna Naumenko, lecturer.*
