
Outside classes on "Children's literature and speech development of preschool children" and "Children's literature and speech development of preschool children with teaching methods»

On November, 1, 5 and 6, 2019, first-year and second-year students (short cycle Bachelor`s degree) of specialty "Preschool Education" visited the National Library of Ukraine for Children in the framework of the study of "Children's literature and speech development of preschool children" and "Children's literature and speech development of preschool children with teaching methods".

A tour around the following library departments was organized for students: the Department of Project and Grant Activities and Public Relations, the Department of Service for Preschool and Primary Schoolchildren, the Department of Rare and Valuable Publications. Students got acquainted with the peculiarities of functioning of each Department, the rules of registration and issuance of literature, the specifics of work in the archive, the purpose and diversity of the library fund. Students watched an exhibition with novelties of educational literature for preschool children, as well as a mini-presentation of the work of modern Ukrainian writers and poets writing for children.

We express our gratitude to the administration and staff of the National Library of Ukraine for Children for their assistance in organizing and making the tour!

***Moderator of the event:** Maryna Naumenko, lecturer of the Department of Preschool Education.*
