

Congratulations to the Winners Grinchenko's Spring Festival!

From April 10 to May 15, the University implemented a distance interactive project "Grinchenko's Spring Festival". This interactive festival was intended to support positive communication during the quarantine period between both students and teaching staff by presenting participants' creative achievements in various forms of art, literature, and sports in online format (recordings or photos); create conditions for self-realization and spiritual development, as well as presentation of personal achievements to the public; establish creative contacts between participants and exchange creative experience. The event was another step in developing our corporate culture and promoting University values. In total, 209 works were submitted for the competition. The creative life at the Grinchenko university continued even during the quarantine! All festival participants will receive University certificates.

Congratulations to the winners of "Grinchenko's Spring 2020" in the following categories:
