
All-Ukrainian day of preschool education

On September 27, 2019, students of the first year of specialty "Preschool education" celebrated their professional holiday - the All-Ukrainian day of Preschool education for their first time.

Department of Preschool Education together with the library of V. Mayakovsky prepared a quest for students. Future preschool teachers learned to develop teamwork skills, analytical skills, negotiating, and making quick decisions.

We express our gratitude to the administration and staff of the library of V. Mayakovsky for the assistance in organization and carrying out of the quest!
