

Distance Learning: The Challenge Of The Time Or Necessity?

On April 15, 2020, the Scientific Society of Students, Postgraduates, Doctoral Students and Young Scientists of the Pedagogical Institute held a lecture "Distance Learning: A Challenge Of Time Or A Necessity?". Students of the educational programs "Preschool Education" and "Primary Education" joined the lecture through the Hangouts Meet platform.

During the lecture, participants got acquainted with the concepts of "distance learning", "distance education", and "open education", as well as the characteristics and tools of distance learning. There was also a discussion, in which the participants came up with an idea that distance learning is an innovative form of learning, which has a number of features and can be applied in all types of educational practice, while ensuring the development of the creative and personal component of the educational process.

Moderators of the event: *vice director for research of the Pedagogical Institute, Candidate of Pedagogical Sciences, senior researcher **Svitlana Palamar**, lecturer of the Department of Preschool Education, head of the Scientific Society of Students, Postgraduates, Doctoral Students and Young Scientists of the Pedagogical Institute **Maryna Naumenko**.*
