
Classes at the Borys Grinchenko Museum

On October 17-18, 2019, first-year students of the Pedagogical Institute gathered for classes on "University studies" in the Borys Grinchenko Museum. The interactive event helped students to become inspired by the ideas of the outstanding educator, to understand the essence of the concept of "leader-servant", and to set self-development tasks for their own future. Grateful students laid flowers at Borys Grinchenko monument.
