

Round Table "Distance Learning: Experience and Prospects"

On May 14, 2021, as part of the Science Festival, the Pedagogical Institute of Borys Grinchenko Kyiv University hosted a round table on the topic "Distance Learning: Experience and Prospects". The Round Table was attended by lecturers of the Departments of Preschool Education and Primary Education, students of the first (Bachelor's) and second (Master's) levels of higher education of specialties 012 Preschool Education, 013 Primary Education. During the meeting, presentations were made by: Nataliia Vyshnivska, Valentyna Vertuhina, Svitlana Dubovyk, Yuliia Volynets, Denys Shyrovkov and others.

During the Round Table meaningful ideas were shared. Participants exchanged their experience of distance teaching, organizing pedagogical practices, using digital tools, and determined the advantages and prospects for improving the learning process in a distance format.

Moderators of the event: Svitlana Palamar – deputy director for research, Hennadii Bondarenko – head of the Department of Primary Education.
