## Social project (23.11.2019)

**On November 23, 2019**, with the participation of students of "Primary Education" and "Preschool Education", an English-language entertainment for young residents of Rusanivka "Ann's adventures" was held within the framework of the Social project "With Kyiv and for Kyiv".

Children guessed riddles, danced, performed movements to musical accompaniment, watched students and their teams, emotionally reacted to the rapid change of actions. The highlight of the entertainment was the quest, where you had to guess the riddle and move on. The adventures of the fairy-tale doll Ann appealed to both children and students, especially the second year students, who are not yet familiar with the methodology of teaching children a foreign language. All participants received a gift of coloring pages and sweets, as well as a boost of energy for the whole day!

***Moderator of the project:** Loboda O. V., senior lecturer of the Department of Foreign Languages and Methodology of Pedagogical Institute*
