## Social project on September, 28, 2019

***On September 28, 2019*** at the Pedagogical Institute, the opening of the tenth stage of the social project "With Kyiv and for Kyiv" took place.

Students of the first and fifth years of the specialty "Preschool Education" invited children and their parents to travel to the world of games, fairy tales, and fantasies. All participants did creative tasks with pleasure, solved riddles, experimented with balls and water, drew on the asphalt, sang with fairy-tale characters, brilliantly performed roles during the staging based on the fairy tale "How the Birch Gave the Leaves".

Fantastic entertainment put children in a cheerful mood.

***Moderator of the event: Iryna Tovkach, Candidate the Psychologic Studies, professor of the Department of Preschool Education.***
