
Forms of Organization of Teaching Mathematics in Primary Schools

On September 13, 2019, the third-year students of the specialty "Preschool Education" had an outside class in School № 81 in Kyiv (director - Zubar T. V.) devoted to "The Main Forms of Organization of Teaching Mathematics in Primary School" under the guidance of Rudenko N. M., Candidate of Pedagogical Sciences, senior lecturer of the Department of Primary Education of Pedagogical Institute,

As the lesson of Mathematics is the main form of organization of educational activities of applicants of primary education, the lecturer divided students into groups to monitor the lesson of Mathematics in different classes (from 1st to 4th). After the observation of the lesson, there was a discussion about the educational and developmental goals of teaching mathematics; various structures of Mathematics lessons; types of lessons and their structural elements.

The purpose of the event is to acquaint students with the main forms of organization of teaching Mathematics in primary school

Moderator: Rudenko N. M., Candidate of Pedagogical Sciences, senior lecturer of the Department of Primary Education.
